

Berger Premium

Since 1916, Berger paints have been manufactured in Australia to the highest standards of quality and reliability. Today, Berger Premium is available in 316 colours that draw inspiration from pastel and neutral colours to the contemporary shades of modern living.

Berger Premium facts:

BERGER
PREMIUM

- The long heritage of the brand is reinforced by the memorable tag line... 'Berger, keeps on keeping on'. In 2016 Berger will celebrate 100 years of paint manufacturing in Australia.
- There are 316 colours in the range: featuring 64 bolds as well as a diverse palette of popular whites and neutrals.
- Colour selection is made easier with colour chips and a colour card available in stores, as well as sample pots for colour trial at home.
- Berger was the pioneer in low odour paints with the Berger Breathe Easy product; perfect for nurseries, asthma sufferers and commercial situations like motels that need to be occupied shortly after painting. Breathe Easy technology is now standard across the entire interior range of Berger Premium paints.
- There are 16 individual products in the Berger Premium range, to satisfy every possible painting project. From undercoats and one-coat ceiling paints to a full range of low odour interiors and water-based enamels for easy wash-up.
- Berger Premium products are available in convenient sizes, suitable for the largest, or the smallest of home decoration projects (500ml, 1L, 2L, 4L, 10L & 15L in selected products).

In February 2010, Inspirations launched the 'Name That Colour' online competition for Berger Premium. Australians were invited to get inspired and name six of the new colours in the range which will launch in August. The competition centred around a website where individuals could submit colour names or vote on others' submissions. To see the winning names visit www.NameThatColour.com.au
